

PRE-CUT LOG HOME PACKAGES

ADANTAGE IN UPGRADING:

PRE-CUTTING & NOTCHING IS NOT TYPICAL FOR MOST MILLED LOG HOME PRODUCERS IN TODAY'S MARKET. WHAT SEPARATES US FROM MOST IS OUR SIMPLE TO USE YET DETAILED PRE-PROGRAMMED SYSTEM DEVELOPED TO MINIMIZE ON-SITE CUTTING OR NOTCHING. MINIMIZE WASTE OF MATERIALS AND MOST IMPORTANTLY TO MINIMIZE WASTE OF ONES BUDGET AND TIME FOR BOTH THE HOME OWNER AND BUILDER.

HOW IT WORKS:

BUILDERS CAN PRODUCE OR HAVE PROVIDED A SYSTEMATIC LIST OF LOGS DETAILING EACH LOGS UNIQUE DESCRIPTION AND PLACEMENT IN THE HOME. ACCOPANIED WITH WALL PANELS THIS PROCESS ALLOWS FOR A FAR SUPERIOR & CONVENIENT FORM OF CONSTRUCTING THE LOG HOME SHELL. PRICES ARE CUSTOM TO EACH PLAN AS ONE PLAN VARIES TO ANOTHER AS FAR SPECIFIC & MORE ELOBORATE DETAIL.
